A Word from Chuck Nelson Your District 2 County Commissioner

As we enter the holiday season, I would like to take the opportunity to say thank you to those individuals who have contributed their time and talents through their volunteer work to make our community a better place in which to live. A special thanks to those who have served on various county advisory boards or committees during the past year. Community volunteers have given countless hours of service and I appreciate your assistance and participation.

Volunteering can be a wonderful experience and Brevard County has a myriad of opportunities for those interested in dedicating their time to volunteer efforts. Your time and talent, combined with the efforts of thousands of volunteers working in Brevard, will make this a better place to live, work and raise a family. Each of us has the ability to contribute to our community in some manner. By working with knowledgeable individuals engaged in problem solving, policies have evolved and have been implemented benefiting our entire community. I hope you will become involved, give of your time and make a difference in your community.
