## APPLICANT ACKNOWLEDGEMENT

Request is hereby made for an electrical safety inspection at the location listed above. The purpose of the safety inspection is to determine if the existing electrical service equipment can be safely connected to the electric utility provider. This application is not a permit and is not authorization to perform any work on the electric service equipment by any person.

The safety inspection is limited to visual inspection of the condition of the electric service equipment and wiring including but not limited to: risers, conduits, raceways, clamps, braces, meter cans, enclosures, panel boards, equipment ground rod(s) and ground rod connections, conductors, lugs and meter sockets. The inspection does not guarantee the condition of the inspected equipment nor does it constitute a warranty of any electrical equipment or component and the applicant hereby agrees to hold Brevard County and its employees harmless for any claim of liability or damages associated with the performance of the safety inspection.
