**\*DEFINITION OF "TREATED WOOD" (CCA)** – any wood treated with a chemical to protect the wood from rotting due to insects and microbial agents. Treated wood - typically generated by deck, dock and fence contractors.

### **WOOD ITEMS TYPICALLY TREATED WITH CCA**

Lumber, timber and plywood with green color  
Wood fences, docks, decks, stairs and posts  
Wood 4" x 4" diameter or larger  
Dimensional lumber with end tags/labels  
Wood from playground equipment  
Lumber used in landscaping flowerbeds, garden, etc.  
Utility poles and railroad ties
